
UN-NYG
Mentoring
Programme

**Congratulations! You have been
selected as a Mentee.**

Programme Overview

Cohort 2019 - 2020

This initiative is implemented by the UN-NYG, with support from DDG-MT, Ms Mary Alice Hayward and the IAEA's Division of Human Resources.

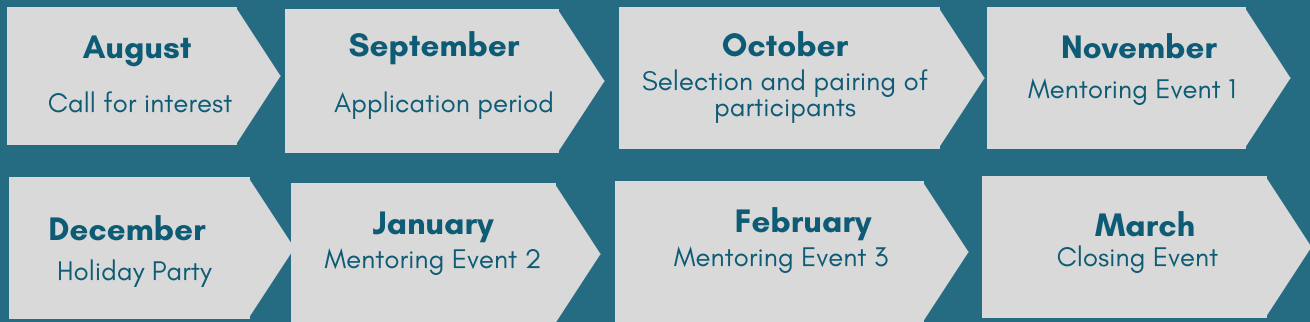

Candidates were hand-selected and paired from an extremely competitive pool of applications, and we are excited to have you as part of our program.

Mission and Values

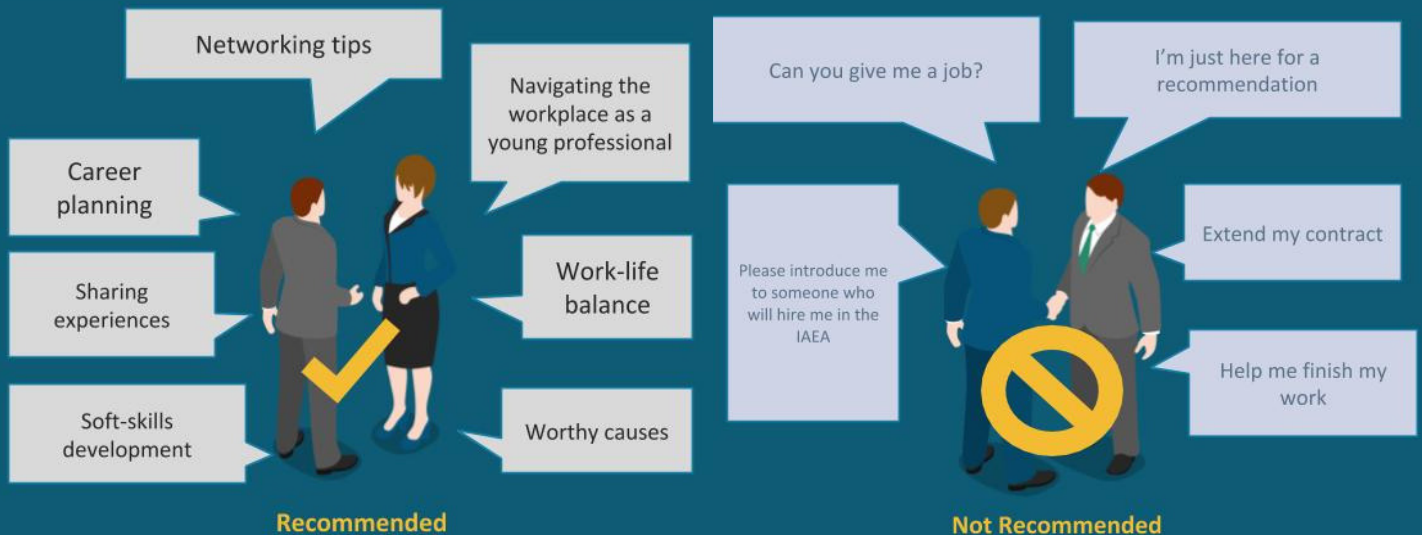

To serve as a platform for IAEA staff to strengthen their professional skills at the workplace and improve networking capacity through the cultivation of cross departmental and intergenerational relationships.

Programme Timeline / Commitments

The timeline includes monthly events during the structured programme, and pairs are encouraged to meet on their own initiative. To facilitate the further development of each mentor-mentee relationship, we will provide an example syllabus to be used as a guideline for the independent programme.

Conversation Guidelines

Thank you for your commitment. We wish you a wonderful experience!
